

What would happen if your dog were suddenly able to speak? Find out on *Martha Speaks*. Based on the popular Houghton Mifflin books by Susan Meddaugh, the project features a chatty canine that develops the ability to speak when she eats alphabet soup and the letters go "to her brain instead of her stomach." Using her newfound abilities, Martha gets jobs, wears disguises, foils bad guys, wins contests and orders lots of steaks!

Weekdays • 6:30 a.m.

Weekdays • 7:30 a.m. and 11:30 a.m.

Sid the Science Kid uses comedy to celebrate children's natural curiosity about science and explores their "Why?" questions in everyday life. It features the energetic and inquisitive five-year-old Sid, who tackles the ideas that preschoolers find fascinating (Why do bananas go "bad"? How does my juice box straw work? How does a bird fly without a plane?). In each episode, viewers will be introduced to Sid's friends and family who help him find the answers to these questions.

also Saturdays • 7:30 a.m.
